Experience

I've been working as a freelance web developer for past 3-4 months.

My Work

Rkcoolcenter.com   www.rkcoolcenter.com

I used these tools while building rkcoolcenter.com
React.js, Firebase, React-Router, Scss, Javascript, Git & Framer-Motion.

Type   https://ravi10000.github.io/type-fast-live

In this webpage users practice their typing by typing quotes.
Tools used : React.js, Scss, Quote Generator API

Mrphonex   mrphonex.herokuapp.com
*currently in final stages of development

I built this website and also a website-tool, to easily manage products and orders on the website, for my client.
I used React.js, Redux, React router, Axios, Scss, Node.js, MongoDB, Express, Passport and many more tools to create these projects.

My Skills

Design: Adobe Illustrator, Adobe XD and Figma

Front-End: React.js, Redux, React-Router, Scss

Back-End: Node.js, MongoDB, Express, Firebase

+ Algorithym & Data Structures + Project Management + Problem Solving

Educational Qualitfications

- BCA from MDU - Graduated in 2021

- Computer Graphics & Web Development Course - in year 2018-2019
